Claudio Cotrufo

Senior Full-Stack Engineer & Tech Lead

claudio.cotrufo.gm@gmail.com · Turin, Italy
linkedin.com/in/claudiocotrufo

PROFESSIONAL PROFILE

Senior full-stack engineer and tech lead with 9+ years on enterprise web platforms in **C#** / **.NET** and **Angular**. At **MSC** leads the headless **Angular 17** front ends of the **msc.com** websites and supervises a fortnightly release cycle on **Azure DevOps**. Has trained and mentored junior developers in each of the last three roles while staying hands-on in the codebase.

EXPERIENCE

Tech Lead, Frontend — Jul 2022 — Present
MSC Mediterranean Shipping Company — Turin, Italy

Frontend tech lead on the **msc.com** corporate websites, built as headless **Angular 17** front ends on the **Sitecore 10** CMS and hosted on **Microsoft Azure**.

- Set the technical direction for the move from an **ASP.NET MVC** monolith to headless **Angular 17**, laying the foundations of the projects now in production.
- Started an **Angular 22** rewrite to break up the legacy monolith and lighten deployments, while the team evaluates **Storyblok**.
- Covered every project in a team of **4 developers** in Turin and **6** in Chennai, running sprint planning, estimates and stakeholder meetings.
- Supervised the fortnightly releases on **Azure DevOps**, reviewing the code before each one ships.
- Ported **Alpine.js** mock-ups into **Razor** views on **ASP.NET**, the double work the **Angular** move removed.
- Mentored the junior developers and ran technical interviews for **4–5** candidates, feeding back on the team to the line manager.

Software Engineer / Experienced Consultant — Feb 2021 — Jul 2022
Welol — Turin, Italy

Consultant delivering **.NET** and **Angular** web applications, deployed through CI/CD on **Microsoft Azure**.

- Built web applications in **C#** on **.NET Framework** and **.NET Core**, with **Razor**, **Blazor** and **Angular** front ends.
- Extended **nopCommerce** and built interfaces on **DevExpress** / **DevExtreme** components.
- Integrated **Keycloak** for authentication.
- Ran the **Azure DevOps** pipelines and covered key user journeys with **Cypress** tests.
- Owned onboarding and mentoring for **2 junior developers**.

HIGHLIGHTS

C# · .NET · Angular · TypeScript · Azure DevOps · Sitecore
